To build all code, please run:

```
make
```

hw0501

Memory Monitor

Information

```
./hw0501 [-h, --help]
```

Excute

```
./hw0501
```

Additional Bonus is in hw0501.pdf

hw0502

ID3 Editor

Information

```
./hw0502 [-h, --help]
```

Excute

```
./hw0502 [OPTION] [FILE]
```

note: You can only use one option while executing this program. note: If the value of file is NULL when using the option -l, it will not print anything. So, the row's info will be empty. note: When you use the option -d, all of the header's value will be set zero (except track part).
